Allowable Subject Matter

1. Claims 1-7 and 13-17 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or suggest a flexible planar laminate comprising a layer of kraft paper to which is adhered a vapor barrier layer consisting essentially of high melting point polymer to which is adhered an adhesive layer of low melting point polymer, where the water vapor transmission rate for said laminate is under about 1.

The claims of instant invention are patentably distinguishable from the prior art because they require the laminate to be flexible. Also much of the prior art utilizes latex emulsions while the instant invention utilizes a high melting point polymer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Pratt whose telephone number is 571-232-1480. The examiner can normally be reached on Mon-Friday from 9 to 5.
